ABOUT PORTLAND BAROQUE ORCHESTRA

Portland Baroque Orchestra produces intimate and historically informed performances of music composed before 1840. The orchestra uses instruments and techniques accurate to the times in which composers were writing, a practice known as historically informed or period performance. PBO is one of the four largest period orchestras in the United States.

PBO aims to leverage its transformative performances to create a vibrant artistic community. We aspire to understand, engage with, and reflect the interests of our diverse community, building a richer ecosystem for the arts in Oregon.
